SUMMARY

WordPress Developer with 3+ years of experience building fast, scalable websites from complex client requirements. Expert in Elementor Pro, JetEngine (Crocoblock), and custom plugin development. Skilled at converting Figma designs into pixel-perfect Elementor builds and integrating AI tools — including Claude and ChatGPT — to accelerate development speed and quality. Strong background in WooCommerce, custom post types, REST API, and performance optimisation.

SKILLS

WordPress: Elementor Pro, JetEngine (Crocoblock), Gutenberg, WooCommerce, ACF, Theme Builder, Widget Editor, Custom Post Types, REST API, Plugin & Theme Architecture

Languages: PHP, JavaScript (ES6+), HTML5, CSS3, MySQL

Frameworks & Libraries: React.js

DevOps & Tooling: Git, GitHub Actions, CI/CD, Vite, Webpack, Figma

EXPERIENCE

WordPress Elementor Widget Developer

Feb 2025 – Present

Bhairab IT Zone

Dhaka, Bangladesh

- Developed custom Elementor widgets using PHP and JavaScript to extend page-builder functionality, collaborating directly with designers and clients on Figma-to-Elementor builds.
- Built advanced JetEngine (Crocoblock) listing grids, custom post-type templates, and dynamic content relationships to meet enterprise client requirements.

Team Leader — WordPress Plugin & Elementor Development

Feb 2023 – Jan 2025

Softvence

Dhaka, Bangladesh

- Led a development team delivering complex WordPress platforms using Elementor Pro, JetEngine (Crocoblock), and custom plugin solutions to solve specific business problems.
- Collaborated with clients and cross-functional teams to translate requirements into polished, on-time website deliverables.

PROJECTS

Anti Fake Orders & IP Blocker (WordPress Plugin) | wordpress.org

- Built and published a WooCommerce security plugin to live storefronts, architecting IP tracking and user validation protocols that prevent up to **95%** of bot-generated fraudulent orders.
- Used custom plugin hooks, REST API endpoints, and PHP to deliver a robust, extensible security layer.

China We Tour | chinawetour.com

- Built scalable, high-traffic platforms using Elementor Pro and WooCommerce, featuring advanced dynamic filtering for extensive SEO metrics.
- Integrated complex JetEngine (Crocoblock) custom post types, queries, and purchasing workflows for seamless user navigation.

Frenzy Domains — Domain Marketplace | market.frenzydomains.com

- Developed a high-performance domain marketplace with WooCommerce and Elementor Pro with specialised JetEngine (Crocoblock) functionality meeting **100%** of client specifications.
- Converted Figma designs into pixel-perfect Elementor builds with full responsiveness and performance optimisation.
